Dräger at a glance

Dräger is an international leader in the fields of medical and safety technology. The family-owned company was founded in Lübeck, Germany, in 1889. Over the past five generations, Dräger has evolved into a publicly traded, worldwide group. “Technology for Life” is the guiding philosophy. Whether in the operating room, in intensive care or emergency response services, Dräger products protect, support and save lives.

LOCATIONS
Dräger technology is deployed all over the world. In approximately 50 countries, we operate our own sales and service branches.

DRÄGER SHARES
In 1979, Dräger issued preferred shares in its IPO; today the company is listed in the TecDax share index. In 2010, the company carried out a capital increase in the course of which it issued common shares with voting rights for the first time, and in doing so opened up still further to the capital market. The Dräger family continues to hold the majority of common shares.
