The e-Health and Bioengineering Conference (EHB) series is one of the salient international conferences on e-health, bioengineering, biomedical engineering and their applications. The 11-th edition of EHB will be held from 9-10 November 2023 in Bucharest, the capital of Romania, a 550-year-old city with a mix of rich history, culture and modern appeal. This annual conference is organized by **Grigore T. Popa University of Medicine and Pharmacy of Iași / Faculty of Medical Bioengineering, and co-organized by Titu Maiorescu University of Bucharest**. Another co-organizers are the Institute of Computer Science of the Romanian Academy, Iași Branch, and the Romanian Society of Medical Bioengineering. The program will gather some of the world-class plenary speakers for emerging topics.

Conference Topics

- Medical informatics
 - Medical robotics and actuators
 - Medical records, clinical, epidemiological and multimedia data bases
 - Medical imaging, image and biosignal processing and analysis
 - Biosignal processing
 - Hospital information systems and healthcare networks
 - Telemedicine, e-health and telecommunications
 - Wearable systems and sensors, m-health and p-health systems
 - Medical devices and equipment
 - Measurement and instrumentation in bioengineering
 - Artificial intelligence in medicine
 - Bioinformatics
 - Wireless sensor networks
 - Microelectronics
 - Healthcare in the space environment
 - Healthcare in military domain
 - Biomechanics
