The **International e-Health and Bioengineering Conference (EHB)** series is one of the salient international conferences on e-health, bioengineering, biomedical engineering and their applications. The 14-th edition of EHB will be held from 12-13 November 2026 ONLINE and ONSITE in **Iasi**, a 550-year-old city with a mix of rich history, culture and modern appeal. This annual conference is organized by **Grigore T. Popa University of Medicine and Pharmacy of Iasi / Faculty of Medical Bioengineering**. Another co-organizers are the Institute of Computer Science of the Romanian Academy, and the International Society for Digital Health and Education.

Conference Topics

- Medical informatics
- Medical robotics and actuators
- Medical records, clinical, epidemiological and multimedia data bases
- Medical imaging, image and biosignal processing and analysis
- Biosignal processing
- Hospital information systems and healthcare networks
- Telemedicine, e-health and telecommunications
- Wearable systems and sensors, m-health and p-health systems
- Medical devices and equipment
- Application of Biotechnology in Cosmetic Industry
- Measurement and instrumentation in bioengineering
- Artificial intelligence in medicine
- Bioinformatics
- Wireless sensor networks
- Microelectronics
- Healthcare in the space environment
- Healthcare in military domain
- Biomechanics
- Biomaterials
- Biotechnologies
- Bioengineering in dental health
- Management and marketing in healthcare
- Biomedical engineering in sports

Submission of Papers

We invite prospective authors to submit full-length papers of technical content. Please refer to the conference webpage, www.ehbconference.ro for more information about paper template and submission guidelines. There will be best student papers awards.

Indexed by:

Springer

Important Dates

- Submission of full papers:
30th JULY 2026
- Notification of paper acceptance:
1st September 2026
- Registration and camera-ready papers:
1st October 2026
- Conference Dates: **12-13 November 2026**
